Dan Morrison A2Z Enterprises 408 Scribner Road Port Angeles, WA 98362

Dear Mr. Morrison

Re: Application for Change/Transfer of Water Right S2-SWC6785

On February 2, 2009, you filed the above Application for Change to change the point of diversion from multiple points on Dry Creek to seven wells and add a purpose of use to S2-SWC6785.

I sent you a letter, dated March 29, 2011, requesting information needed to process this change. You have also been informed by two other Ecology staff; Vicki Cline and Marie Peter that this information was needed to process your water right change. This information is detailed below:

- Information on the wells you wish to add to this certificate:
 - o Latitude and longitude
 - o Well reports, if available
 - o Well depth and construction details
 - o Pumping capacity.
- Date when you stopped diverting surface water and started using the wells.
- Information on irrigation practices:
 - o How many acres irrigated historically and in the past five years.
 - o Method of irrigation.
 - o Crop grown.
 - o How much water was used.
- Additional details on how you plan to put the water to use after the change, if approved.
 - o Estimates on how much water needed for dust control.
 - o Consumptive use for water needed for ponds.
- Development schedule for putting the water to beneficial use.

To date, I have not received any of this requested information.

This information is necessary to confirm that the water right you are requesting to change is valid and in good standing. Without this proof, your water right application will be denied.

Unless I receive a complete package that includes all this requested information by November 1, 2011, I will reject your application.

Please feel free to call or email me if you have questions.

Sincerely

Tammy Hall, L. H.G Hydrogeologist/SWRO

BEFORE THE DEPARTMENT OF ECOLOGY STATE OF WASHINGTON

IN THE MATTER OF GROUND)
WATER PERMIT NO. G 2-26457 P)
TO APPROPRIATE PUBLIC WATERS)

ORDER
OF
CANCELLATION

TO: Port of Port Angeles
P.O. Box 1350
Port Angeles, WA 98362

On November 8, 1984, this office issued Ground Water Permit No. G 2-26457 P which authorized the Port of Port Angeles, permittee, to appropriate public waters of the state. The permit required that construction of the well will begin by August 1, 1985.

A telephone discussion with Mr. Ken Sweeney (Port of Port Angeles), on January 16, 1986, revealed the well has not been drilled and due to lack of ground water in the area, no attempt will be made to drill a well. Mr. Sweeney agreed that the permit should be cancelled.

IT IS ORDERED that Permit No. G 2-26457-P be and is cancelled.

Chapter 43.21B RCW provides that any person who feels aggrieved by such an order may appeal to the Pollution Control Hearing Board of Washington, with a copy to the Director of the Department of Ecology, within thirty (30) days of the receipt of this order. Procedures for requesting a hearing may be obtained from this department.

day of-.1986. DATED this Clark Haberman, Regional Manager Department of Ecology Southwest Regional Office 697 172 P 483 RECEIPT FOR CENTIFIED MAIL NO INSURANCE COVERAGE PROVIDED-NOT FOR INTERNATIONAL MAIL State of Washington (Sec Reverse) Sant to Party But angles

October 24, 1985

Port of Port Angeles P.O. Box 1350 POrt Angeles, WA 98362

Gentlemen:

Ground Water Permit No. G 2-26457 P

In reviewing your permit, we find you have not responded to our letter of August 20, 1985, requesting notice of beginning of construction.

If the work has been started on this project, please complete the enclosed form. If not, you must request an extension of one year. Please submit the statutory extension fee of \$8.00 payable to the Department of Ecology.

By statute, projects under permit must be pursued with diligence, and good cause for granting an extension must be shown. A report of progress made during the past year must be included with your request for extension.

If you do not submit the enclosed form or show sufficient cause for an extension within 60 days from receipt of this letter, an order of cancel- lation will be issued.

Sincerely.

P 483 697 100

THE PARTY NAMED IN

重点

BACKGRUUND:

This application was received and accepted by the Department on December 19, 1983. The public notice appeared in The Daily News on February 16, and 23, 1984. There were no protests to the notice.

The applicant has applied for 170 gallons per minute from a well to irrigate 40 acres.

INVESTIGATION:
A field examination was made on this application on June 19, 1984. The irrigation project was discussed with Mr. Ken Sweeney of the Port of Port Angeles. The Port of Port Angeles is leasing land to a farmer for cultivation of raspberries and trees. Irrigation will be for raspberries and seedling trees which will be cultured for Christmas trees. The well for raspberries and seedling trees which will be curedied for chiral acres of raspberries had not been drilled on the date of the field examination, but about 3 acres of raspberries had been planted.

There are no recorded ground water rights within a } mile of this proposed well, and there have been no well interference problems within this general area.

Normal irrigation requirements in this area of Clallam County will be met by a withdrawal of 2 acre-feet for each acre of irrigation. The annual quantity required to irrigate 40 acres is 80 acre-feet.

CONCLUSION:

In accordance with Section 90.03 and 90.44 RCW, I find that there is water available for appropriation from the source in question and that the appropriation as recommended is a teneficial use and will not impair existing rights or be detrimental to the public welfare. rerefore, permit should issue, subject to existing rights and indicated provisions.

RECOMMENDATIONS:

I recommend this application be approved for 170 gallons per minute from May 1 to October 1 each year for irrigation of 40 acres. The annual quantity shall not exceed 80 acre-feet.

Anstallation and maintenance of an access port as described in Ground Water Bulletin No. 1 is required. An air line and gauge may be installed in addition to the access port.

Water user should understand that quantities recommended and the number of acres to be irrigated may be reduced at the time of issuance of a final water right commensurate with the capacity of the installed system and the number of acres actually irrigated.

All water wells constructed within the state shall meet the minimum standards for construction and maintenance as provided under RCW 18.104 (Washington Water Well Construction Act of 1971) and Chapter 173-160 WAC (Minimum Standards for Construction and Maintenance of Water Wells.)

A well log of the completed well shall be submitted by the driller to the Department of Ecology within thirty (30) days of completion of this well. This well log shall be complete and all information concerning the static water level in the completed well, in addition to any pump test data, shall be submitted as it is obtained.

REPORTED BY:

DATE:

The State Water Code requires a permit fee of \$16.00 for 40 acres of irrigation. This is based on 40¢ for each acre of irrigation.

In the Superior Court of the State of Washington for Clallam County

Affidavit of Publication

STATE OF WASHINGTON } ss.

The undersigned being first duly sworn on oath, deposes and says:

That she is authorized to and does make this affidavit for and on behalf of Port Angeles Evening News, a corporation, and that the following statements of fact are within her personal and actual knowledge.

That said corporation is the owner and publisher of THE DAILY NEWS, published in Ciallam County, and has been approved as a legal newspaper by order of the Superior Court of said Ciallam County of the State of Washington.

That the annexed is a true copy of a

Water rights - Port of

Port Angeles 2300344

as it was published in regular issues (and not in supplement form) of said newspaper on

February 16, 23, 1984

and that said newspaper was regularly distributed to its subscribers during all of said period. That the full amount of the fee charged

for the foregoing publication is §3 3. , 3 1. at the rate

of 4.01 per line inchxx 100 words

for the first insertion

and 3.00 per inch xx

for each subsequent insertion.

Subscribed and sworn to before me this

27th day of February, 1984

Notary Public in and for the State of Weshington residing at Port Angeles. RECEIVED MAR 1 2 1984
